PROGRAMME

An intensive one-day interactive workshop presented by the Oxford University Business Economics Programme

FLEXIBLE WORK AND INFLEXIBLE CARE: OPPORTUNITIES AND CHALLENGES FOR AN INCLUSIVE WORKFORCE

Work is changing rapidly. To remain inclusive, businesses must further adapt to the changing realities of family life. Our Diversity Day workshop will examine the latest economic research and business practices on promoting inclusive work, managing a flexible workforce, creating gender-inclusive supply chains and encouraging supportive fatherhood. The world's finest labour economists, many of whom are at Oxford, will engage in conversations and debates with business and policy leaders from around the world in order to stimulate new ideas for building inclusive workplaces.

Monday 11 March 2024
09:00 - 16:45
